

Dear Pet Expo attendee and cherisher of animals,

My deep apologies for not including on my regular email newsletters you requested. Your file was lost in the computer. Welcome to paths for health.

CLASSES

Most importantly, the early price discount for the annual Prince Georges Feral Friends (PGFF) classes on holistic health for animals has **passed**. My apologies for not getting this out sooner. If you register by Friday, May 23, send an email to Tim Saffell (timsaffell@usa.net) that you just heard about the class from the May 2008 newsletter and they will honor the early registration price for you. Also, we have a few of the journals left. The first 20 to register and email me will get a free journal. Homeopathy, nutrition and Chinese medicine classes taught by great speakers fill the last 2 weeks of June in Bowie, MD, near Washington DC. Not near DC? Students have come from Israel, Hong Kong and Japan. This year I know of one coming from Alberta, so no excuses. www.HomeopathicAnimalCare.org to register and for details.
